Press Release June 2010

Jewell Announces new Triplet CamView PTZ

Triplet Test Equipment and Tools is pleased to announce the newest addition to its broad range of test equipment serving the Security Systems marketplace.

“Triplet’s CamView PTZ is the one tool that every CCTV and Security Professional needs in his tool bag” says Triplet Business Manager Gary Dudman. This multi-function Test Tool hosts a full color 2.6 inch TFT-LCD video monitor allowing for full loop thru capability or simultaneous view/gen mode while the PTZ keyboard allows for fast access to Pan, Tilt, Zoom, Focus and Iris.

“This is just the next offering by Triplet,” says Dudman, “that carries on the tradition of providing a great value for the performance of the tester.” Ted Suever, Sales Manager for Triplet adds, “Our customers cannot keep them on the shelves. The interest at the InfoComm show in June was phenomenal and we expect the the local business owners to order more CamView PTZs to reduce their overall cost of installations while still ensuring a quality system.”

For more information or to purchase the CamView PTZ contact any of Triplet’s distributors, visit our website at www.triplett.com or contact Ted Suever directly at tsuever@triplett.com .
