Dear Valued Jewell Instruments LLC Customer:

In Re: Kobe Steel Ltd. Material

In response to the EASA SIB No. 2017-17 referencing Falsified Inspection Data from Kobe Steel Ltd. Material, Jewell Instruments LLC has contacted our entire supply chain to determine whether Kobe Steel Ltd or its related entities have supplied materials which may have become inputs into Jewell Instruments LLC products.

Across-the-board for all Jewell Instruments and Triplett and Byte Brothers branded product offerings we have found no evidence that this is the case for any affected products as defined by the above EASA SIB.

Please contact your Jewell or Triplett Customer Service representative if you should have any further questions about this matter.

Thank you for your business.

With Kind Regards,

T.B. Dining

Timothy B. Dining
